

LACK FUND FOR DOESN'T WORRY PIONEER EVENT ABOUT HOPPERS

Only Old Timers of 1847 Will Be Entertained Free; Others Invited

Owing to a shortage of funds and lack of time, the state and church officials have decided to entertain only the Utah pioneers of 1847 at Salt Lake next Saturday, Sunday and Monday, it was announced today.

Other Utah pioneers are cordially invited to participate in the celebration, but they are required to pay their own expenses.

Daughters of Pioneers are requested to appeal to all relative of pioneers to see to it that the old folks are permitted to share in the enjoyment of the festivities. This includes all pioneers up to May 10, 1869. The committee says they will be cordially welcomed.

No arrangements were made in Weber county for a Pioneer celebration because the Weber county officials thought that all pioneers would be taken care of at the state celebration. The local committee asks that all pioneers who have not registered to do so with Miss Annis Brown at the City hall, for the local committee hopes to use this list soon in planning for a celebration to include all pioneers.

PEDDLING CASE IS AIRED IN COURT

The trial of A. M. Budd, alleged to be a peddler, charged with peddling without a license, began in the city court today.

Budd pleaded not guilty, and stated that he was in no sense a peddler, but was representing an Salt Lake commission firm.

He is alleged to have sold produce to merchants in Ogden and to have delivered it from a wagon in front of their places of business immediately after making the sale.

Attorney W. H. Reader, Jr., contends that the ordinance passed to prohibit peddling in Ogden does not apply to the case, inasmuch as the defendant dealt with dealers only, and not with consumers, which he contends is the distinguishing feature in all such cases according to the case of the City of St. Paul against Briggs decided in the state supreme court of Minnesota, January 24, 1902.

Gomer Nichols was the principal witness called this morning and testified that he had bought a crate of onions from Budd on June 10, and that Budd had the onions on a wagon in front of the store and delivered them immediately after the sale had been made in the store.

P. O. TO HAVE HALF HOLIDAY SATURDAY

Mail carriers are to have a half holiday on Saturday beginning July 22 and ending September 15, according to an announcement made this morning by Postmaster Rufus A. Garner, something that has never been done in Ogden heretofore.

The carriers will report earlier on each Saturday morning and by speeding up their work will be able to complete it by noon.

In order to expedite the delivery on Saturdays the clerk's shifts will be arranged so that a sufficient force will be on duty to take care of all mail and not delay its receipt or dispatch.

This will also allow the clerks to have a half holiday on Saturdays during the same period.

Postmaster Garner said that the employees have welcomed the idea during the hot summer months and are giving it every support and co-operation to make it a success.

FOREST FIRE CASES TO BE PROSECUTED

E. S. French, assistant to the solicitor, with headquarters in the district forest office, of the forest service, left for Boise, Idaho, last night, to begin a vigorous prosecution of a number of persons arrested for violating the federal and state fire laws in regard to national forests.

His trip is in line with vigorous prosecutions of all such cases which policy has recently been decided upon by the forest service officials of district Four.

Local officials received a telephone message from Montpelier, Idaho this morning to have Mr. French stop on Tuesday to prosecute a case involving the setting of a fire on the Caribou national forest during the closed season from June 1 to October 31, during which fire wardens of the state refuse to issue a permit to start fires for the purpose of clearing land within the national forests.

According to the telephone message the mining company officials applied for a permit to set off fires and when refused, ordered men in their employ to go ahead and start the fires, irrespective of the permit which was only put under control after it had burned over the land of the mining company, and also after it had burned considerable land of the forest.
